### BATTERY WARNINGS

- Remove dead or exhausted batteries.
- Do not mix old and new batteries.
- Do not mix standard (carbon zinc), alkaline, rechargeable (nickel cadmium) or lithium batteries.
- Do not recharge non-rechargeable batteries.
- Dispose of batteries safely, following guidelines for your area.
- Insert batteries as shown.

Treat your inflatable foot bath with care. If it springs a leak, you can find vinyl repair kits at most hardware supply stores. Be sure the surface is dry before repairing.

**Caution:** Although this water-based nail polish is washable be sure to cover your work area with a paper towel and clean up any messes right away.

**Sensitive Skin Warning:** If you experience any redness or skin irritation, please discontinue use.

You will need to gather a couple supplies from home: paper towels, and bath towels.

Prepare a safe place for painting your nails. Remember, nail polish can stain fabrics and furniture. Use paper towels to cover your work surface.

Set up all your supplies so everything is right at your fingertips.

Nail polish should be tightly closed when not in use to keep it from drying out.

**Now invite your friends over and let the Spa Party begin!**

**SENSITIVE SKIN WARNING:**  
If you experience any redness or skin irritation, please discontinue use.

## Manicure

- Starting with clean hands, gently shape your nails using the flower-shaped nail file. For a natural look, file your nails following the shape of your finger. To create a smooth edge, file in one direction only.
- Use the fuzzy side of your file to buff your nails and make them shine.
- Select your favorite color of polish and gently shake it. Place your hand on the hand rest and start painting. Or ask a friend to paint your nails for you. Use the nail dryer between coats (see instructions below).
- For sparkly nails, add a top coat of glitter polish.

## Nail Dryer

**-Install the batteries following the instructions printed on the last page.**

To dry your polish, place your fingertips inside the nail dryer and gently push down to activate the fan. When the polish feels dry to the touch, switch sides and do the other hand.

Pull  
down to  
tear off

## Nail Sticker Art

Finish off your manicure with some fun nail art. Just peel and press them onto your dry nails. Tear off the longer strips to fit your nails as shown to the left. Remove any extra sticker material from the edges of your nails with your nail file.

Try the french tip glitter stickers to make a glamorous, sparkly french manicure or pedicure.

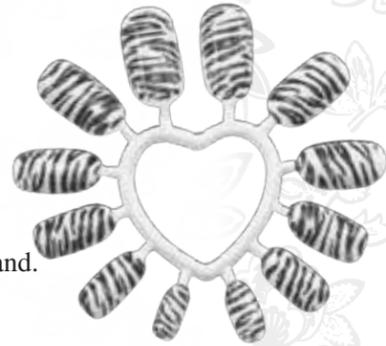

## Fabulous Fakes

Your kit includes 6 sets of printed press on nails –lots of fun designs and colors to choose from. For a fun mix-and-match manicure, try using different colors and patterns of nails together.

- Peel off the top of the release paper to expose the sticky adhesive.
- Select the size that fits your fingernail and press it firmly against the exposed adhesive.
- Once the nail and adhesive have bonded, pull them away from the sheet. Center the artificial nail onto your real nail and press it firmly into place. Repeat until all 10 nails are complete. Save any leftover adhesive tabs to make repairs.

## Removing the Nails

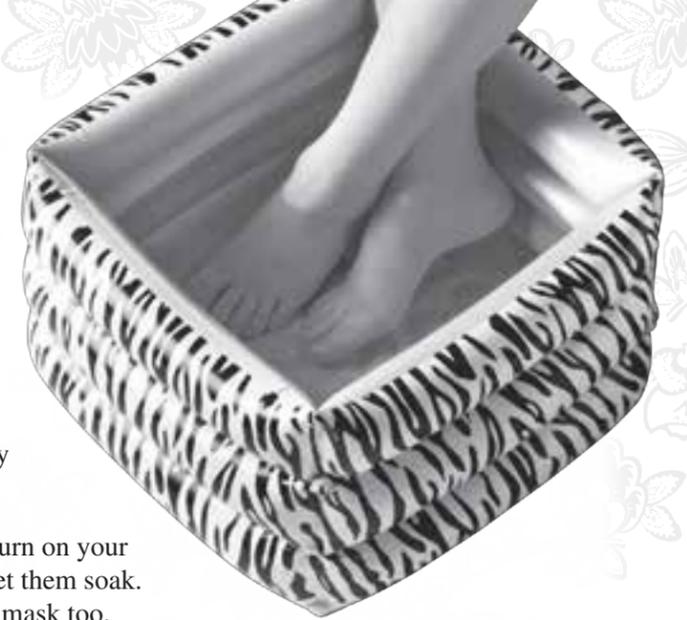

To remove the nails, carefully peel up the side of each nail. Work slowly so the adhesive remains attached to the nail. The nails may be reused as long as the adhesive remains sticky.

## Perfect Pedicures

You will need a chair, 2 towels, and a pitcher of warm water.

- Start by blowing up your pedicure pool. You will need to inflate both the bottom and the sides of your foot spa. Once it is fully inflated, close the nozzles and push them in.
- Place your pedicure pool over a towel to catch any drips. Be sure to have a dry towel handy too.
- Fill your pool ½ full with warm water, not hot! Turn on your favorite music. Place your feet in the water and let them soak. For an extra-relaxing experience, put on your spa mask too.
- When your feet are soft and clean, remove them from the water and dry them with your towel. *(NOTE: If you are sharing this with your friends, wash the pedicure pool with soap and water, rinse, dry and refill for the next friend.)*
- File and shape your nails using the flower shaped nail file/buffer. Be sure to file straight across the top of your nail. Do not file or clip the sides of your toenails.
- Buff your toe nails with the soft side of your nail file. Then place your toes between the foam flower toe separators.
- Select your favorite color of polish, gently shake the bottle and begin painting.
- For a sparkly effect, add a top coat of glitter nail polish.
- When the polish is completely dry you can add some fun nail art stickers.
- To create a french pedicure, paint your toe nails. Let the polish dry completely. Add the french tip glitter stickers in the same way you added them to your fingers. Tear off the white strip to fit your nails by pulling down.
- Remove the foam toe separators and carefully put on your spa slippers. You can wear these around until your pedicure is completely dry.

## Clean Up

To remove your nail polish and stickers, you can just peel it off. You can also soak your hands and feet in soapy water and do a little scrubbing.

## Spa Bag

When you are all finished, store your supplies in the satin spa bag. Make sure all the accessories are clean and dry before placing them in the bag. Take the spa bag with you on sleep overs – perfect for girls on the go.
