IR Flateye

IR Bullet

Network Camera Features

WiseStream II +H.265 Compression
Reduce bandwidth and storage costs through efficient data transmission

120dB True WDR
Backlight compensation provides clear imaging under any lighting conditions

30fps, H.265 Codec
Smooth 30fps video transmission with H.265 compression technology

LDC (Lens Distortion Correction)
Corrects video distortion created by using wide-angle lenses

IVA Intelligent Video Analytics
Increases situational awareness and alerts operators to abnormal activities in real-time

Hallway View 270° Rotation Support
Supports vertical FoV for monitoring narrow scenes with 90°, 180°, and 270° rotation

Affordable high quality NVR solutions

Wisenet A series 4CH, 8CH, and 16CH NVRs support maximum camera resolutions of up to 8MP and H.265, H.264, and MJPEG codecs. The improved installation wizard and 4K resolution monitor output make system setup simple and monitoring crystal clear. Increased accessibility options include the use of P2P connections, the Wisenet Mobile application, and on PC or Mac with Wisenet Viewer CMS.
