

# M20

## Aluminum Safe, Oxygenated Powder Detergent

High performance oxygenated powder detergent for machine warewashing that is specially formulated for excellent soil removal in all water conditions.

### Features & Benefits

- Superb results due to effective, free-flowing granulated powder formulation
- Effective stain removal by the presence of active chlorine
- Stable, free-flowing formulation is easy to dose
- One pass cleaning over a variety of soil loads and water conditions

### Applications

- Suitable for all water conditions
- Safe on soft metals

# Suma® Active

## Aluminum Safe, Oxygenated Powder Detergent

Suma® Active M20 Aluminum Safe, Oxygenated Powder Detergent is a manually-dosed, aluminum-safe dish detergent. Safe on soft metals. Gives one pass cleaning over a variety of soil loads and water conditions.

### Use instructions

#### MECHANICAL WAREWASHING

1. Load Dish Machine Correctly – Follow dishwasher manufacturer's instructions. Distribute items evenly with soiled surfaces facing water spray.
2. Add product – Fill detergent cups to level suggested by manufacturer. If machine has no cups, place 2 tablespoons in bottom of dishwasher.
3. Use Hot Water – Recommended temperature range 60-70°C (140-160°F).
4. Hard Water or Heavy Soil – If water is hard or dishes are heavily-soiled, add more product.

#### PRE-SOAKING STAINED COFFEE AND TEA POTS

1. Fill each Coffee or Tea Pot half way with warm water.
2. Place 2 tablespoons of product into each pot per gallon of water
3. Gently agitate the pots to mix in the chemical, and fill the rest of the way with warm water.
4. Let the pots soak for a minimum of 5-15 minutes.
5. Empty out the solution.
6. Fill with clean water and rinse at least 3 times to remove any chemical residue.
7. Wash, rinse, sanitize and air dry before use. NOTE: This product does not need to be used every time the Coffee/Tea Pots are cleaned. It is recommended only if there is a build-up or stain on the Coffee or Tea Pots. The pots should be pre-soaked before performing regular cleaning procedures.

### Safe handling

Please make sure your employees read and understand the product label and Safety Data Sheet before using this product. The label contains directions for use; and both the label and SDS contain hazard warnings, precautionary statements and first aid procedures. SDS are available online at [www.diversey.com](http://www.diversey.com) or by calling 888.352.2249. Improper use or dilution may result in damage to surfaces and may result in health and physical hazards that match those of the concentrate.
