

Dahle 556s Rotary Trimmer

Dahle Professional Series

The Dahle 556s Professional Rotary Trimmer with a 37 ¾" cutting length is designed for precision and accuracy. It features a ground self-sharpening blade, an automatic clamp to prevent shifting, and a metal base for durability. It includes a space-saving stand to ensure optimal cutting height. This German engineered cutter is ultraprecise and ideal for trimming paper, photographs, and cardstock.

SELF-SHARPENING

This trimmer features a self-sharpening cutting system. No need to worry about replacing dull or worn blades, this system sharpens as you cut to maintain a perfectly honed edge. The blade's precision graduated edge will remove even the tiniest sliver of paper, and produce a clean, burr free cut.

AUTOMATIC CLAMP

Holding your work securely by hand is no longer necessary. The trimmer's integrated, automatic clamping system provides even pressure that prevents your work from shifting.

METAL BASE

For durability, this German engineered trimmer features a sturdy metal base. It's a solid foundation that will never warp or crack.

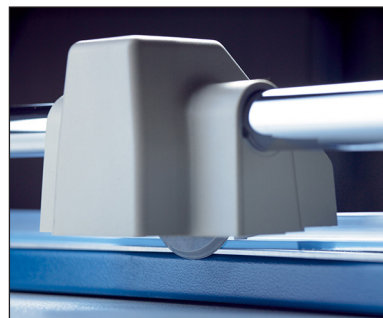

ALIGNMENT GUIDES

For measuring, the base contains carefully screened inch and metric guides to help align your cuts.

Dahle's 556s Professional Rotary Trimmer is a popular choice among professional photographers, print shops, and graphic design agencies.
