

FILIGREE BIRD

Assembly Instructions

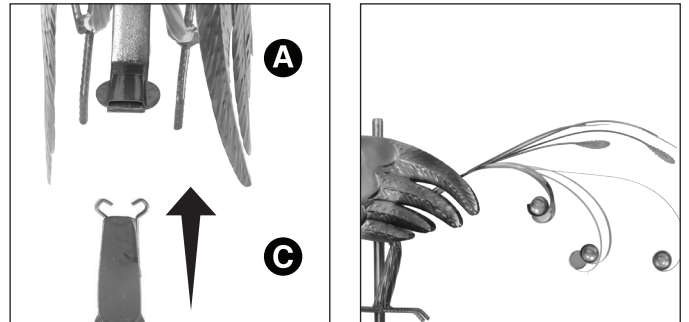

Step 1:

Insert head (B) to body (A) by pinching the metal prongs and slide it in the opening.

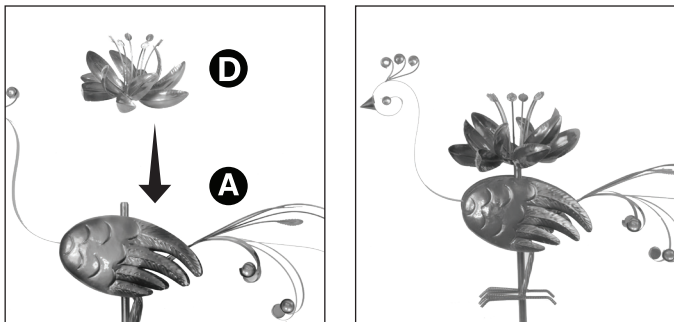

Step 2:

Insert tail (C) to body (A) by pinching the metal prongs and slide it in the opening.

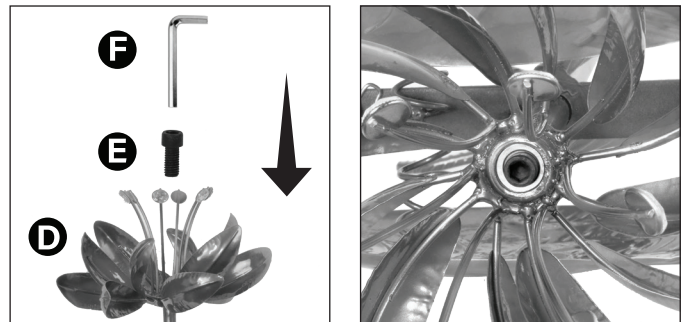

Step 3:

Place flower (D) on top of body (A) (Result of step 2).

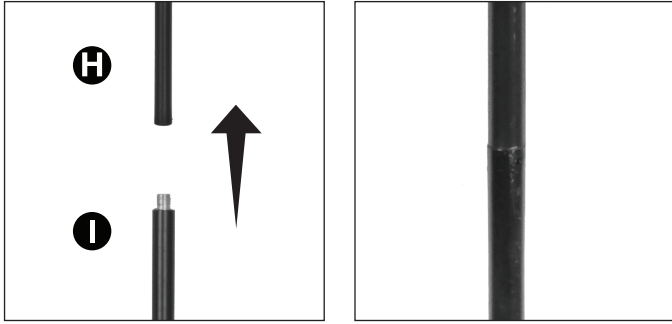

Step 4:

Insert nut (E) on top of flower (D) by turning it to the right with the allen wrench (F) until firmly tightened.

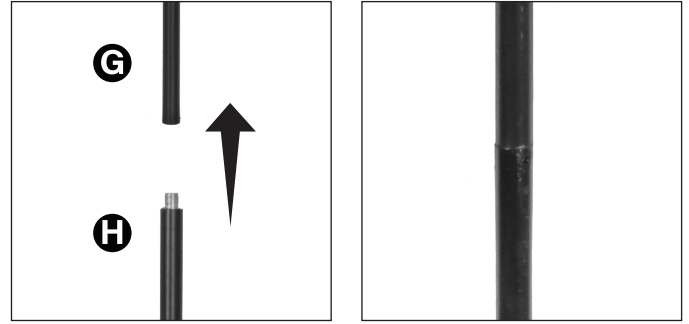

Step 5:

Insert stake base (I) into middle pole (H) (result of step 6) by turning to the right until firmly tightened.

Step 6:

Insert middle pole (H) to top pole (G) (Result of step 5) by turning to the right until firmly tightened.

Step 7:

Insert body (A) (Result of step 4) into top pole (G) by inserting it from above.
