

HIDE YOUR ROCKS

Ask an adult for permission and assistance.

Now place your rocks where people will find them, and remember, while you are out hiding rocks, make sure you keep your eyes open, as you just might find a few rocks of your own!

NOTE

The paint and transfers will continue to cure and harden over time. For best results, do not allow your decorated rocks to touch and do not place them in a plastic bag or they may stick.

HIDE & SEEK

HALLOWEEN ROCKS

Celebrate the season by painting and hiding your own Halloween rocks. We give you everything you need to paint and decorate 10 rocks! Extra transfers are included for even more Halloween decorating fun.

Cover your work surface and have a cup of water and paper towels handy.

Wear a smock or old clothes. This paint may stain fabrics, furniture and other surfaces. Clean up any spills immediately while the paint is still wet.

Paint can settle and separate over time. Mix each color thoroughly before you begin painting.

Before changing colors, rinse and dry your brush.

Transfers should not be applied to skin.

GETTING STARTED

You will need a pair of scissors and a cup of water to complete this activity.

Formed by nature, each rock has its own unique shape. Match your transfers to the size of each rock.

PAINT

For better coverage, start with a layer of white paint first. Once that coat is dry, you can paint over the white with your favorite color. Always rinse and dry your brush before changing colors.

TRANSFERS

You can use the transfers directly on the bare rock, or over a painted rock. Make sure the paint is completely dry before proceeding with this step.

Since rocks come in all shapes and sizes, we give you plenty of transfers to choose from. Save any leftover transfers to use on your own rocks.

- Cut out the transfer you want to use. For best results, trim the extra paper away.
- Peel off the clear film and place the sticky side against your rock.
- Wet the sponge and lightly press the back of the transfer against the rock. Peel up the corner to make sure it is adhered. If not, use a bit more water. Do not move the transfer until it is adhered.
- Dry off the rock with a paper towel. You can leave the rocks as is or accent it with more paint.

GLOW ROCKS

Use the tube of glowing accent paint to highlight to your rocks. When the paint is dry, hold it up to a light to charge the paint and make it glow even brighter when the lights are off.

TRY THIS

- Use your creativity, along with the extra paint, to create your own Halloween designs.
- Hosting a Halloween Party? Painting rocks is a fun group activity or great alternative party "treat".

SHOW US YOUR ROCKS!

Part of the fun of Hide & Seek Halloween Rocks is sharing with others. Place the clear tracking stickers on the bottom of your rocks. That way you and the finder can post pictures on our Facebook and Instagram sites with #creativityforkids. Share your creativity with rock painters and finders everywhere! Remember, always seek adult permission and assistance before visiting any social media sites.
