

Play!

Scoop, discover and learn while engaging your senses. Use the tools to collect and explore your space objects. Watch the stars glow in the dark!

Note to Parents - Using the scoop and tongs are a fun way for your child to practice their fine motor skills and hand-eye coordination.

Fun things to try:

- Count the items inside the bin.
- Name each item and creature.
- Make up a story about your space adventure.
- Call out the colors of each item.
- Close your eyes and grab an item from the bin. See if you can identify it using your sense of touch.
- Imagine you are in outer space, what sounds do you hear? Now use your nose, what can you smell?
