

# 40 PC. WET/DRY SANDPAPER ASSORTMENT

### THREE ABRASIVES

Aluminum oxide, garnet & silicon carbide

### GARNET

For woodworking in 60, 80, 150 and 220 grits

### SILICON CARBIDE

For metal, plastic, and glass in 180, 400, 600 and 800 grits

### TEAR RESISTANT

Ideal for hand sanding blocks and power tools

### ALUMINUM OXIDE

For metal, wood, and plastic, in 60, 100, 150 and 220 grits

Item #	Inner	Master	UPC	Packaging
<b>W3057</b>	0	16	039564150531	Color Box

- An assortment of 3 different abrasives in grits to cover almost any wet or dry sanding need, such as auto body, paint, wood, metal, plastics, glass or drywall
- Tear-resistant backing and anti-clog coatings provide a long life and are ideal for hand sanding blocks and power tools with clamp-on attachment styles
- Full-sized 9 x 11 in. paper can be cut into 1/2, 1/3, or 1/4 sheet sizes depending on your application

- 20 pc. Aluminum oxide, used for metal, wood, and plastic, in 60 (4), 100 (6), 150 (6), and 220 (4) grits
- 10 pc. Garnet used primarily for woodworking in 60 (2), 80 (3), 150 (3), and 220 (2) grits
- 10 pc. Waterproof silicon carbide used for metal, plastic, and glass in 180 (2), 400 (3) and 600 (3), and 800 (2) grits
- For best results, it's recommended to use a sanding block to maintain a consistent, flat working surface. Begin with the coarsest grit and then gradually progress to finer grades
