

INTERACTIVE GATEWAY MODULES

3G CELLULAR COMMUNICATOR
GSM: RE927 series
CDMA: RE928 series

This device connects to the panel keypad bus, and is field switchable to support DSC PowerSeries, Honeywell Vista, NX, Concord, or Simon panels. It enables both alarm reporting and interactive arming from smart phones. There is an optional Z-Wave card for added home automation features.

WI-FI™ COMMUNICATOR
RE926 series

This device connects to the panel keypad bus, and is field switchable to support DSC PowerSeries, Honeywell Vista, NX, Concord, or Simon panels. It enables both alarm reporting and interactive arming from smart phones. There is an optional Z-Wave card for added home automation features.

IP COMMUNICATOR
RE920 series

This device connects to the panel keypad bus, and is field switchable to support DSC PowerSeries, Honeywell Vista, NX, Concord, or Simon panels. It enables both alarm reporting and interactive arming from smart phones. There is an optional Z-Wave card for added home automation features.

IP HD CAMERA
RE024

Fixed Wi-Fi with IR lights, the RE024 camera has the ability to communicate with a wireless router without an ethernet cable but still has ethernet as an option for users. For indoor use only. Comes with camera mounting bracket, outlet power supply and ethernet cable.
