

LIPPERT VICTORY STEP® WITH ENTRY ASSIST HANDRAIL

The Lippert Victory Step® is an entry step assembly that can be mounted to the side or rear of any patio opening to provide ease of entry. The Victory Step is compatible with a variety of deck heights and comes in triple and quad step configurations.

Both the triple and quad steps have a heavy-duty, 300-lb. operational weight rating

KEY FEATURES

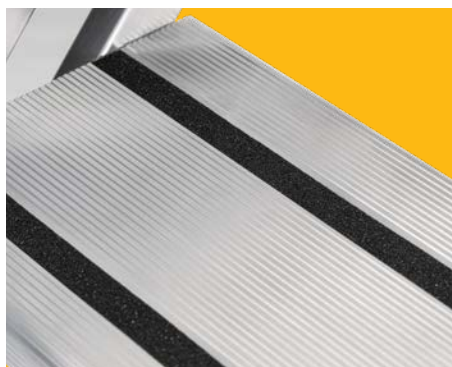

Adjustable step pitch for easy customization

Quick-release levers allow for easy detachment and storage

Includes handrail for extra stability while using the steps

Anti-slip treads to ensure safe ascending and descending

Included hardware kit for easy mounting to your patio or deck ramp

Optional garage storage brackets (sold separately) for keeping the step in a clean environment when not in use

Five adjustable leg lengths to assure stable footing on uneven ground

Pivoting foot pads for enhanced ground contact

Additional Features

- Collapsible step for rear toy hauler patio systems
- Universal fit for a variety of deck heights
- Entry height adaptability from 23"-35" for the triple step and 30"-45" for the quad step
- 8" rise for comfortable climbing
- Lightweight aluminum construction for easy lifting
- Available in triple and quad step configurations
- Additional handrail kits can be purchased separately
