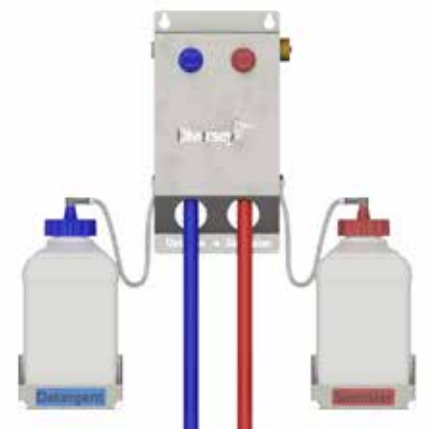
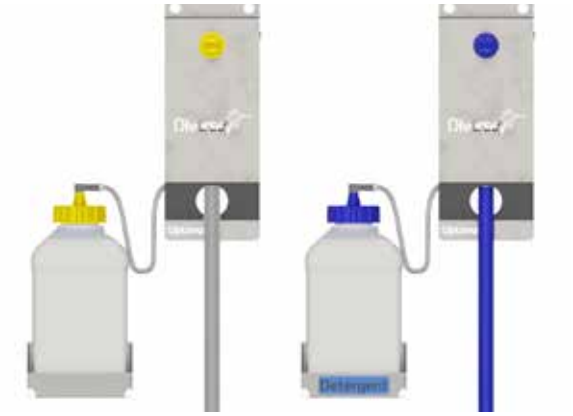
Optimus™

Dispenser

Optimus™ is Diversey's newest dispenser designed to be robust, intuitive and versatile. This dispenser provides unrivaled accuracy and reliability.





Features & Benefits

- Innovative and proprietary rugged Safe Stainless Steel™ construction with leading-edge design for a durable & ergonomic feel. No sharp edges and easy to clean.
- Best in class Diversey Super Duty Water Valve™ provides foam reduction and increased accuracy lasting through years of heavy-duty use and trouble-free operation in the field
- Diversey super space-efficient design minimizes base footprint
- Signature red, yellow and blue touch points for ease of use
- Super high concentrate compatible for lower cost supporting green initiatives and sustainability
- High Flow & Low Flow versions available to cover a breadth of use across multiple application points. Units are gangable

Applications

- For use in Food Service, Hospitality, Heath Care, Education, Government, Retail and BSC
- Different dispenser versions available for: Command Center™/MC, J-Fill®, Open Container and BIB

Optimus™

Dispenser

Use Overview

The Optimus™ Dispensing System consistently delivers accurate dilutions compatible with various types of packaging. Select the dispenser fit for you and simply follow the use instructions provided with each unit. All units operate with a simple push of a button.

Please review the appropriate Optimus User Guide for the complete operating instructions

1. Press button to dispense product.
2. Turn to lock in place.
3. Push and turn the button to unlock.

Technical data	Optimus™ Single Button	Optimus™ Double Button
Unit Dimensions	Height: 13 1/8" (33 1/3 cm) Width: 6 17/64" (16 cm) Depth: 4 1/32" (10 cm)	Height: 13 1/8" (33 1/3 cm) Width: 10" (25 cm) Depth: 4 1/32" (10 cm)
Water Supply Hose	Not included	Not included
Operating Range Requirements	Attach only to a tap water outlet that has a pressure between 30-85 PSI (200-580 kPa), a minimum volume of 2.0 gal./min. (7.6 L/min.) and temperature between 50-122˚F (10-50˚C). Please note that a pressure regulator is required for pressures above 85 PSI (580 kPa). Max rated flow: 5.1 GPM black eductor; Back pressure rating is zero. See your local Diversey Representative or Distributor for details. DO NOT USE any water supply hoses or fitting

Safe handling

Please make sure your employees read and understand the product label and Safety Data Sheet before using this product. The label contains directions for use; and both the label and SDS contain hazard warnings, precautionary statements and first aid procedures. SDS are available online at www.diversey.com or by calling 888.352.2249. Improper use or dilution may result in damage to surfaces and may result in health and physical hazards that match those of the concentrate.
