

QUESTION

Figure 1 shows a graph of the number of people in a population over time. The population starts at 100 people at time 0 and grows exponentially. The graph shows a curve that starts at (0, 100) and passes through (10, 200) and (20, 400). The x-axis is labeled 'Time (years)' and the y-axis is labeled 'Number of people'.

Time (years)	Number of people
0	100
10	200
20	400

ANSWER

The graph shows exponential growth. The population doubles every 10 years. The x-axis is labeled 'Time (years)' and the y-axis is labeled 'Number of people'. The curve starts at (0, 100) and passes through (10, 200) and (20, 400).

Time (years)	Number of people
0	100
10	200
20	400

QUESTION

The graph shows a curve that starts at (0, 100) and passes through (10, 200) and (20, 400). The x-axis is labeled 'Time (years)' and the y-axis is labeled 'Number of people'.

Time (years)	Number of people
0	100
10	200
20	400

ANSWER
