

Multiple monitors are critical for keeping important information in view and improving workflow. The challenge is how to hold them safely and view them comfortably. The modular Tetra Support System (TSS) of columns, monitor arms, and accessories offers a flexible solution that securely holds multiple monitors and allows for ergonomic adjustments.

The TSS Trio holds three monitors and allows for a wide range of adjustments for viewing comfort. Designed for stability and strength, the TSS Trio displays three monitors weighing up to a total of 99 pounds evenly distrib-

uted over each support arm. The TSS Trio includes two TSS folding arms III XL, one TSS support carriage, and one 17.52" TSS HD column with a heavy duty drilling screw. Easily adjust for height, horizontal position, reach, and monitor tilt for the perfect viewing angle. The 4-channel column allows for easy reconfiguration.

All TSS support arms are equipped with a rolling ball joint attached to a Quick Release monitor mount – simply click the monitor in place and tilt to the perfect viewing angle. Cable routing clips are included to ensure an organized appearance.

Item Number	Height	Base Option	Capacity	Range
220+0180+000	17.52"	Drilling Screw HD	99 lbs	17.52"

FEATURES

- Adjustability: horizontal position, monitor angle, height
- Carrying capacity: 99 pounds evenly distributed over each support arm
- Range, support carriage: 4.13"
- Range, folding arm III XL: 27.56"
- Column height: 17.52"
- Drilling screw HD adds stability, fits table thicknesses of 1.197" to 2.76"
- High-quality aluminum and metal construction
- Cable clips keep cables under control
- German engineered for quality and longevity
- Mounting standard: VESA 75/100
