

QUESTION 24578 MCQ

QUESTION 24578 MCQ

The diagram shows a floor plan of a building. It features a central vertical corridor that branches out horizontally to the left and right. On the left side, there are several rooms, some of which appear to be smaller and more rectangular. On the right side, there are larger, more complex rooms, possibly including a larger hall or a meeting area. The drawing is very light and lacks clear labels or dimensions, making it difficult to discern specific details. The overall impression is that of a schematic or a conceptual layout rather than a detailed architectural drawing.
