

A-FRAME TONGUE JACKS

INNOVATION, DURABILITY AND STRENGTH LIKE NEVER BEFORE

Whether you're looking for a powered or manual option, or something in-between, Lippert has got you covered with our full line of A-frame tongue jacks. From our game-changing Power Stance™ to the drill-operated Quick Drop® we offer jacks that have all the bells and whistles to make your RV setup quick and easy so you can get back to enjoying your weekend.

**Whenever, wherever, we
make your experience better.**

INNOVATION, DURABILITY AND STRENGTH LIKE NEVER BEFORE

Power Stance™ — Where unrivaled versatility meets extraordinary power

- Enhanced rocker switch for improved durability
- 2-to-7-way plug powering system (Power Swap Auxiliary Cord™ required)
- Integrated LED lights shine on the coupler
- Sleek, one-piece plastic head-cover protects the jack from the elements and helps keep water from infiltrating the motor and gears
- Convenient storage inlet for you to tuck away your trailer's 7-way connector — keeping it safely protected from damage
- Helical-cut gears provide quiet, efficient operation

Power Stance is equipped with a 2-to-7-way power system so you can use the Power Swap Auxiliary Cord (sold separately) to connect your jack to your tow vehicle

Our jack comes with integrated safety chain storage, allowing you to clip your chains out of the way instead of dragging them or wrapping them around your jack

Smart Jack™ — Intelligent power for your trailer

Auto-hitch memory function remembers hitch height after use

Backlit control panel for easy operation at night

Power Tongue Jack

Quickly raise or lower your trailer with the push of a button

Quick Drop®

Operate jack with a power drill and 3/4" socket head (not included)
