

# SCREEN DEFENDER

## ENTRY DOOR SCREEN PROTECTOR

### PROTECT YOUR PET AND YOUR RV

Bring your pet with you on your next adventure. Inspired by RV owners with pets, the Screen Defender Entry Door Screen Protector by Lippert is a black powder-coated aluminum screen that helps ensure your pet can't damage or break through your existing Lippert entry screen door.

Available in four sizes, the Screen Defender is designed to be compatible exclusively with our full line of entry doors made for travel trailers and fifth wheel campers, as well as for motorized doors on motorhomes. And installation couldn't be easier. The Screen Defender fits and locks into existing channels on your Lippert screen door. Get peace of mind and get back to camping.

**Whenever, wherever, we  
make your experience better.**

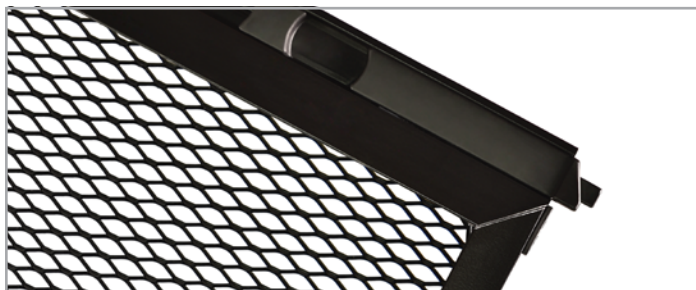

## PROTECT YOUR PET AND YOUR RV

### Added protection

This is an easy solution to keeping your pets safely inside your RV and it helps protect your Lippert entry door from damage caused by your furry camping companion

### Durable construction

The solid aluminum screen is constructed with the same materials as the Lippert entry door frame

### How to measure

To find the right size, simply measure the inside edges of your entryway doorframe and round up to the nearest even number: 24", 26", 28" or 30". This number will correspond to your RV door's rough opening size and the correct Screen Defender size to purchase.

Note: The actual length of the Screen Defender will always be shorter than the listed "size", which corresponds to your door's rough opening size

### Additional Features
