Job Name	_____
Location	_____
Engineer	_____
Contractor	_____
Tag	_____ PO# _____

Specifications

The LevelBest® drainage system offers the convenience of adjusting the floor level both before and AFTER the concrete has been poured. Its domed top provides protection during the concrete pour and is safe to use with power floats and power trowels. Additionally, this system can be used with tile rings for added versatility. Each LevelBest® drain is primer tapped.

Materials

Strainer: Nickel-bronze
 Spacer Ring: White PVC
 Coring Ring: Gray PVC

Strainer Load Rating

Light Duty

Strainer Free Area

5.11in²
