

Water Pump with Discharge Hose

Featuring an easy-grip T-handle, this water pump is great to keep handy for home, RV, or even boat emergencies!

Jones Stephens' water pump's long body allows it to go deep into valve boxes, meter box pits, pipe trenches, or anywhere else water accumulates. Not for corrosive or flammable liquids.

Reliable

Perfect for emergencies, the water pump can be used without priming to remove up to 35 ounces of water per stroke.

Durable

Constructed of high-impact PVC, the pump is lightweight, chemical resistant, and non-sparking.

High-Quality

With a removable foot valve, the pump is easy to use and excellent for draining water meter boxes, tubs, basins, washing machines, dishwashers, sinks, showers, valve boxes and sumps.
