Applications

- Safe for use on aluminum and most soft metals
- Not for use on precious metal
- Product is automatically injected into the dishmachine using the RevoFlow[®] dispenser

Suma® Revoflow® Safe P9

Metal Safe Mechanical Warewash Detergent

Use Instructions

- Premium warewashing detergent for heavy soil conditions. Safe for use on aluminum wares and most soft metals.
- Remove loose colorless plastic outer cap (if present) from full container and place into Revoflow® detergent dispenser, being sure to match the color of the container cap with the color on the dispenser
- Product is automatically injected into the wash tank of the dishmachine using the Revoflow® dispenser
- Use level will vary depending on operating and water conditions and will be recommended by your Diversey representative
- Follow pre-scrub, racking and general operating/maintenance procedures as directed by your Diversey representative to ensure proper cleaning and sanitation results
- For Food Plant Use: All food contact surfaces must be thoroughly rinsed with potable water after treatment with this product. Avoid contamination of food during use or storage.
