SECTION 4: First aid measure

Description of first aid measures:

- General Advise:** Consult physician. Show this safety data sheet to the doctor in attendance.
- If inhaled:** Move victim to fresh air and keep at rest in a position comfortable for breathing.
- In case of skin contact:** Take off immediately all contaminated clothing. Rinse skin with water or shower. If irritation persists, consult doctor/physician.
- In case of eye contact:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do so. Continue rinsing.
- If swallowed:** DO NOT induce vomiting. Do not give anything by mouth to an unconscious person. Get prompt medical attention.

SECTION 5: Fire-fighting measures

- Suitable extinguishing media:** Use any means suitable for extinguishing surrounding fire.
- Specific hazard arising from chemical:** May evolve carbon monoxide, carbon dioxide, and other unidentified fragments if this product is involved in a fire.
- Advice to firefighters:** Keep containers cooled with a water spray if involved in a fire. Liquid, vapors and mists are corrosive.
- Protective equipment:** Wear self-contained breathing apparatus and full protective gear

SECTION 6: Accidental release measures

Personal Precautions, Protective Equipment and Emergency Procedures:

Ventilate area of leak or spill. Keep unnecessary and unprotected people away from area of spill. Wear appropriate personal protective equipment and clothing during clean-up

Environmental precautions: DO NOT contaminate municipal sewers or other open bodies of water with runoff.

Methods and material for containment and clean-up: Dike the spill immediately with appropriate materials to prevent the spread of liquid. Absorb the liquid with an inert absorbent such as sand, dirt, vermiculite or "oil-dri", or use commercial absorbent pads. Transfer liquids and solid diking material to suitable containers, and dispose of in accordance with local, state, and federal regulations.

SECTION 7: Handling and storage

Conditions for safe storage, including any incompatibilities: Avoid contact with skin and eyes. Keep containers closed when not in use. Empty containers may contain residue. All containers should be disposed of in an environmentally safe manner, and in accordance with all governmental regulations. Keep this and all chemicals out of the reach of children.

SECTION 8: Exposure controls/personal protection

Airborne exposure limits: Isopropanol: OSHA PEL-TWA: 980 mg/m³ NIOSH REL - TWA: 980 mg/m³

Engineering controls: Local exhaust is recommended when used in enclosed areas

Personal protective equipment:

Respiratory protection: Use in a well-ventilated area. If mist is being generated and exceeds the TLV, a respiratory protection program meeting OSHA 1910.134 and ANSI Z88.2 requirements must be followed.

Eye protection: Safety glasses (ANSI Z87.1) or approved equivalent as necessary to minimize eye contact hazards.

Skin protection: Neoprene or other materials may be used if there is documented evidence of compatibility.
