CPR Rescue Mask Kits

WE CARE LIKE FAMILY™

Makes resuscitation safer for the responder and more efficient for the patient.

Since you won't be pinching the patient's nose shut, each rescue breath will have two avenues of entry into the body. Supplemental oxygen, connected by way of the mask's oxygen inlet, increases concentrations of organ-sustaining oxygen by 50%. Remove the included valve, and the mask can be connected to a BVM. The BVM with reservoir will increase patient oxygen concentrations to 100%.

CPR Rescue Mask Kit (Reorder No. 4924)

- Completely seals to the faces of infants, children and adults
- Includes 1 pair of vinyl exam gloves
- Contains detailed instructions
- CPR Mask with optional oxygen port
- Hard case with wrist strap
- Not made with natural rubber latex

Reorder No.	Description	Quantity
4924	CPR Rescue Mask Kit	25/Cs

Depending on market demand and Dynarex stock, we will be happy to address any orders for items/sizes currently not shown.
