CyberPower

GC301
OUTLET EXTENDER

Provides power for multiple electrical devices and appliances from one wall outlet

The GC301 one to three outlet extender from CyberPower expands one outlet into three outlets, giving you a 13-inch total reach, with four-inch cord lengths to each individual outlet from the junction housing. Because its outlets are on separate cords, the GC301 is ideal for accomodating transformer plugs and power cords of differing lengths.

TYPICAL APPLICATIONS
- Desktop Computers
- Personal Electronics
- Routers & Modems

FEATURES
- Outlet type: NEMA 5-15R
- Outlet quantity: 3
- Plug type: NEMA 5-15P
