

HIDE & SEEK

HYDRO DIP
ROCKS

This no-paint kit is a fun and unique way to decorate rocks. For best results follow the step-by-step instructions carefully. Younger children will need adult assistance to complete this activity. We give you a few extra transfers just in case.

Spread happiness, spread encouragement, make someone smile. We give you everything you need to decorate and hide 10 Hydro Dip rocks!

GETTING STARTED

Please rinse and dry your rocks thoroughly.

Formed by nature, each rock has its own unique shape and size.

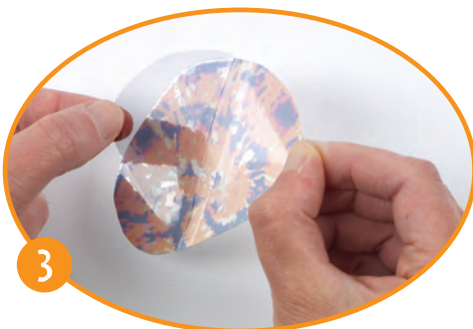

You will need a pair of scissors, pen, small plastic bowl of water and paper towels to complete this activity.

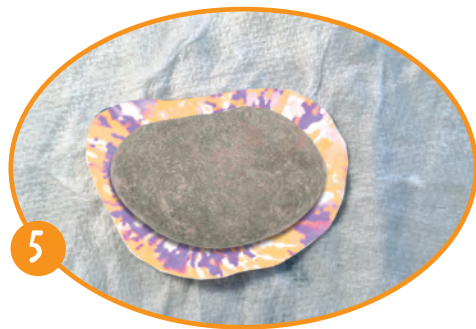

Fill your bowl with water. Wet your paper towel and sponge and have it near your work area

Select a design for your first rock.

1. Lay the rock on the white side of the design. Using your pen, trace around the rock leaving a small border of white.
2. Cut along the line with your scissors.
3. Peel off the clear plastic sheet.
4. Holding the transfer by the white border, submerge the design in water. Count to 15 until it is completely wet.

Pro-Tip – avoid touching or moving the wet design or the transfer may come off or tear.

5. Remove the transfer from the water and set it on your wet paper towel with the design side facing up. Lay the rock in the center of your design.

6. Gather the wet paper towel around your rock and twist as shown.

Pro-Tip – If your paper towel is thin, try using a double layer. This will help prevent tearing.

7. Count to 30 then slowly remove the towel and release paper.

8. Use your wet sponge to gently push the transfer against your rock, smoothing out any wrinkles.

Pro-Tip – Use the leftover transfer pieces to repair or patch your designs as needed. Place the wet transfer patch on your rock. Press it in place using your wet sponge.

Continue the above steps until all the rocks are decorated. When the rocks have fully dried, add the tracking stickers to the bottom of each one. Now you are ready to hide!

SHOW US YOUR ROCKS

Part of the fun of Hide and Seek Hydro Dip Rocks is sharing with others. Placing the clear tracking sticker on the bottom of your rocks allows you and the finder to post pictures on our Facebook and Instagram sites with the #creativityforkids hashtag.

Share your creativity with rock hiders and finders everywhere! Remember, always seek adult permission and assistance before visiting any social media sites.

HIDE YOUR ROCKS

Ask an adult for permission and assistance to place your rocks where people will find them. While you are out hiding rocks, make sure you keep your eyes open, as you just may find a few rocks of your own.

Although the Hydro Skins included in your set are weather-resistant, natural weathering or fading of your rocks will happen over time.
