

**ASSEMBLY&INSTALLATION**

*Please read carefully and save these instructions,as you may need them a later date.*

**CAUTION**

Turn off the main power at the circuit breaker before installing the fixture, in order to prevent possible shock.

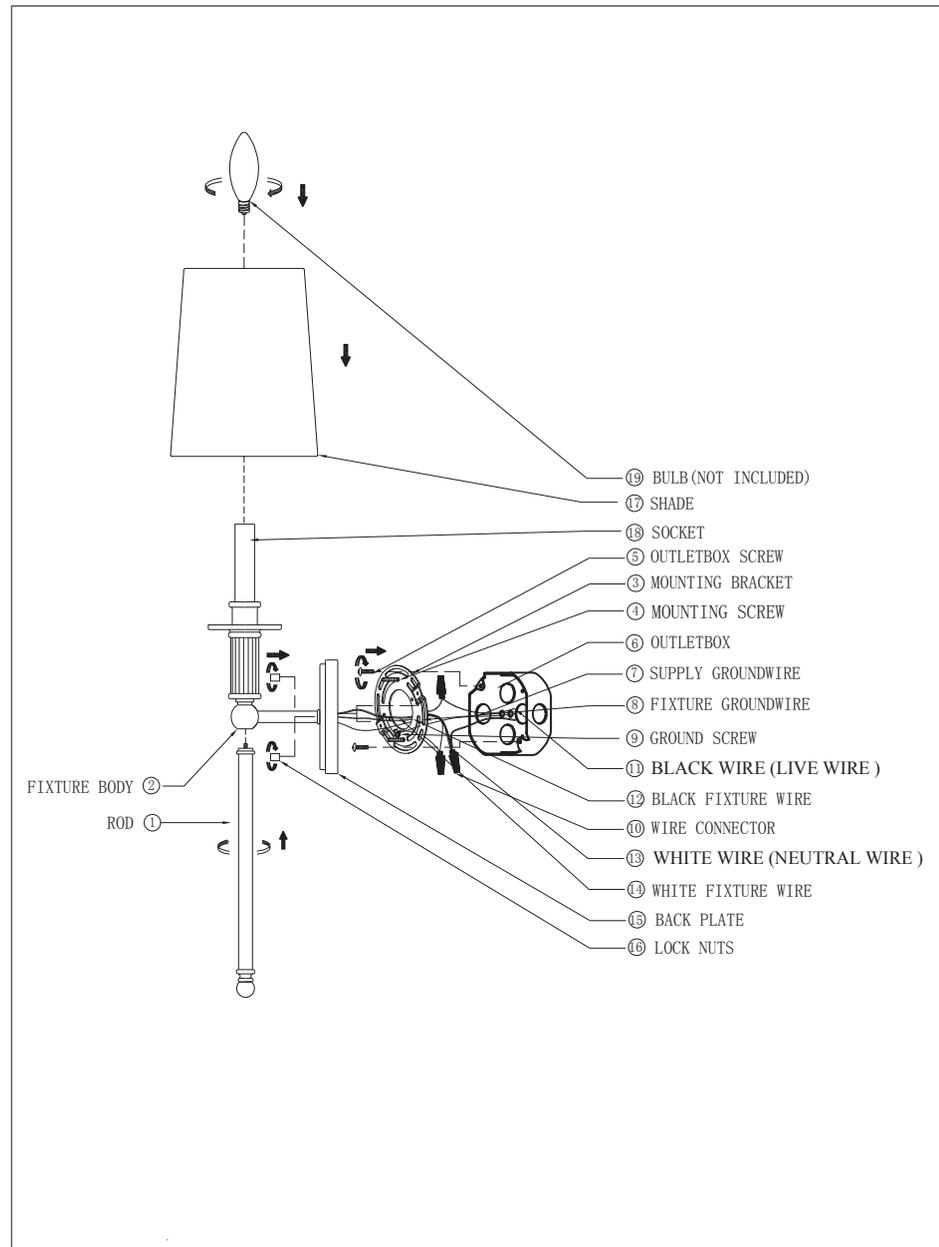

**GENERAL**

All electrical connections must be in accordance with local and National Electrical Code(N.E.C) standards. If you are unfamiliar with proper electrical wiring connections obtain the services of a qualified electrician.

Remove the fixture and the mounting package from the box and make sure that no parts are missing by referencing the illustrations on the installation instructions.

**ASSEMBLY AND INSTALLATION**

1. Carefully unpack the fixture, lay out all parts on a clean surface.
2. Screw rod (1) into fixture body (2).
3. Mount the mounting bracket (3) to the outlet box (5) by using two outlet box screws (4).
4. Tie the ground wires (8) from fixture and from outlet box to the ground screw (7) on the mounting bracket (3). Connect the white fixture wire (14) from the fixture to the white wire (neutral wire 13) from the supply circuit. Connect the black fixture wire (12) from the fixture to the black wire (live wire 11) from the supply circuit.
5. Cover the connections by using provided wire connectors (10). Position wires back inside the outlet box (6).
6. Place the back plate (15) onto the mounting bracket(3), and secure it into place using the lock nuts (16) provided.
7. Slide the fabric shade (17) over the socket(18).
8. Install the bulbs (not included 19). Use 60-watt max. candelabra-base bulbs.
9. Turn on the power.

**ASSEMBLY AND INSTALLATION (CONT.)****INSTALLATION IS NOW COMPLETED**
