INSTALLATION INSTRUCTIONS

Please read carefully and save these instructions as you may need them a later date.

CAUTION

WARNING: Risk of Fire. Consult a qualified electrician to ensure correct branch circuit conductor.

Turn off the main power at the circuit breaker before installing the fixture in order to prevent possible shock.

GENERAL

All electrical connections must be in accordance with local and National Electrical Code (N.E.C.) standards. If you are unfamiliar with proper electrical wiring connections obtain the services of a qualified electrician.

Remove the fixture and the mounting package from the box and make sure that no parts are missing by referencing the illustration.

ASSEMBLY AND INSTALLATION

1. Carefully unpack the fixture and lay out all parts on a clean surface..
2. Secure the mounting strip (1) to the outlet box (2) using the outlet box screws (4).
3. Assemble the fixture by connecting the chain (5) to the collar loop (10) and fixture loop (7), then pass the wires through the chain and canopy (9).
4. Make all electrical connections using wire connectors (14): join wire without writing (17) to white wire (neutral wire) (18), wire with writing (15) to black wire (live wire) (16), and connect ground wire (11) to supply ground wire (13) using ground screw (12).
5. Carefully tuck all wires into the outlet box and secure the canopy (9) to the mounting strip.
6. Install the K/D ring (6) and collar loop ring (8) to complete the assembly.
7. Install the appropriate bulb (19, not included) into the socket.

8. Turn on the power and test the light fixture.

INSTALLATION IS NOW COMPLETED
