

Love Bugs™

A Card Game

Contents

- 40 Bug Cards
- 1 Stink Bug Card

Objective

Be the player with the most pairs at the end of the game without getting stuck with the Stink Bug Card.

Set Up

Players select a dealer. Shuffle the Cards and deal all of the Cards face down between all of the players. Some players may have more Cards than others, and that is fine.

Playing the Game

1. At the beginning of the game, all players flip over their dealt decks of Cards and place any matching Cards face up in front of them so that the matches are visible to all players.
2. Players should keep any unmatched Cards in their hand so that they are not visible to the other players.

3. Player one (*to the left of the dealer*) fans out the Cards in the player's hand to the player on the left (*player two*) so that player two and the other players can't see the cards in the hand.
4. Player two chooses one Card from player one's hand and, if this creates a match, places that match face up in player two's group of matching Cards.
5. Play continues to the left, with players choosing from the hand of the player to their right.
6. If a player's hand is empty, the player is safe and no longer plays in the game.
7. The game is over when all matches have been revealed, and one player is left with the Stink Bug Card (*that player automatically loses*).

Winning the Game

Players count their matches. Any player with the Stink Bug Card automatically loses. The remaining player with the most matches wins. Ties are ok.
