The Dynarex Resp-O₂™ Guedel Airway is a premium-quality respiratory device designed to help open and maintain airways in unconscious patients. The Guedel Airway's curved construction helps to ensure an uninterrupted breathing process while minimizing patient discomfort. The Airways feature a durable bite block for added stability and are color-coded for easy size identification.

- Constructed from premium-quality polypropylene for optimal durability
- Designed with smooth, curved edges for improved comfort
- Reinforced bite block provides optimal stability
- Transparent design allows for effortless visualization
- Color coding allows for immediate size identification
- Individually packaged for optimal hygiene
- Not made with natural rubber latex or DEHP
