

## QUESTION

Which of the following is not a characteristic of a good research question?

- A. It is clear and specific.
- B. It is broad and general.
- C. It is measurable and testable.
- D. It is interesting and relevant.

**ANSWER**

**B** It is broad and general.

**EXPLANATION**

A good research question should be clear, specific, measurable, and testable. It should also be interesting and relevant. A broad and general question is not a good research question because it is too vague and does not provide enough information to answer.
