StandOut®

Durable Floor Finish

Better results. Lower investment.

StandOut is an innovative low odor floor care system that delivers superior results you can count on. We know floors aren't your only priority.

- Reduction in Total Cost of Ownership with a more durable finish, time and labor savings during install and removal, and an easy and safe-to-use system
- Low odor, ideal for Healthcare environments

Advanced Package Design

StandOut is a two-component floor finish in a proprietary 100% safe 2-in-1 pouch

- No chemical exposure risks with unique closed-loop packaging
- No mixing required – just squeeze the pouch to break the seal and release the pre-determined amount for a ready-to-use solution
- No wasteful packaging

Integrated Solution

Apply StandOut floor finish with the Diversey ProSpeed™ applicator

- Reduce chemical waste with unique shut-off technology
- Regulate surface coverage for consistency and efficiency in floor coating
- Minimize water requirements and worker fatigue

Ready in seconds, place the mixed StandOut pouch into the ProSpeed applicator for easy and safe install

Outstanding in every category

2X More Durable vs Conventional	Reduces maintenance frequency	Less burnishing, extend scrub/recoat
Saves Time	Reduces turnaround time 25% to strip / install	Decreases disruptions by allowing patient rooms to be turned over faster
Hand Sanitizer Resistance	No damage after prolonged sanitizer exposure	Maintains high appearance longer
Repairable	Removes scratches reducing dirt embedment	Maintains glossy appearance
Safe and Easy	Ready to use package, no mixing required	No special training needed for application or removal

Compare StandOut Removability to the Competitive floor finish

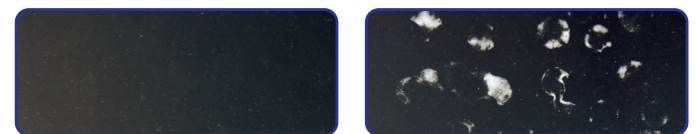

StandOut

Competitive

While StandOut is twice as durable as conventional finishes, we understand that removability of a floor finish is key. The VCT tile on the left was coated with StandOut floor finish. The tile on the right was coated with a competitive floor finish. Both finishes were removed using conventional stripping procedures. The unique formulation of StandOut allows for a 25% faster removal, saving chemical, time and labor.

Compare StandOut to the Conventional floor finish

StandOut

Conventional

This comparison shows a higher resistance to hand sanitizers after multiple applications. The VCT tile on the left was coated with StandOut, the tile on the right was coated with a conventional finish.
