

Eliminate tank odors from the source

Your dealers are sick and tired of hearing complaints of tank odors seeping into RV living areas. You can stop this issue before it starts with the 360 Siphon[®] RV holding tank vent cap. The 360 Siphon eliminates odors from the source — the holding tanks — and exhausts them out the roof vent before they have a chance to invade the RV living space. By design, the patented 360 Siphon can only create an updraft, expelling odors and fostering an oxygen-rich environment to speed up waste breakdown, so caustic chemicals, perfumed cover-ups, black tank flushes and macerators are no longer needed. With the 360 Siphon standard, RVers will breathe easier and enjoy a healthy, odor-free living environment.

Features:

- Prevents tank odors and gasses from invading RV living space
- Eliminates the need for chemicals, black tank flushes and macerators
- Sophisticated, patented design with no moving parts
- Speeds up waste breakdown
- Works in any wind condition
- Available in black or white
- Easy installation
- Built-in bug screen
- No maintenance
