

Extraction Cleaner

Extraction Cleaner is a powerful multi-purpose cleaner compatible with advanced generation fibers.

Features & Benefits

- Effective formula provides excellent cleaning in hot or cold water, resists resoiling and maintains excellent hard water tolerance with no optical brighteners
- Versatile product that can be used as a liquid extraction cleaner, traffic lane pre-spray or bonnet buff cleaner
- User-friendly low foam formula for the needs of today's high pressure carpet extractors
- WoolSafe approved

Applications

- Use as a multi-purpose carpet cleaner
- Safe to use on all synthetic carpets
- Vacuum carpet to remove loose soil and pre-spot carpet prior to cleaning
- If being used for the first time, test for colorfastness in an inconspicuous area before use

Extraction Cleaner

Use instructions

For Portable Extractor Use

- Dilute 5 oz. of Extraction Cleaner per 5 gallons cold water (147 mL per 19 L).

For Truck Mount Stock Solution

- Add 40 oz. of Extraction Cleaner per 5 gallons cold water (1.18 liters per 19 L).

For Use as Pre-Spray (except on stain resistant synthetics)

- Dilute 13 oz. of Extraction Cleaner per gallon cold water (78 mL per liter).
- Spray solution via a low-pressure sprayer onto carpet, paying particular attention to spots and traffic lanes. Agitate with a carpet rake, extractor brush, shampoo brush or bonnet.
- Fill extractor with clear cold water or Extraction Rinse according to label directions and rinse carpet. After cleaning, re-set pile by brushing in one direction with a clean stiff synthetic broom or carpet rake.

Safe handling

Please make sure your employees read and understand the product label and Safety Data Sheet before using this product. The label contains directions for use; and both the label and SDS contain hazard warnings, precautionary statements and first aid procedures. SDS are available online at www.diversey.com or by calling 888.352.2249. Improper use or dilution may result in damage to surfaces and may result in health and physical hazards that match those of the concentrate.
