

LevelBest® Drainage System

The LevelBest® drainage system ensures a clean, professional installation every time. The system's unique design allows for adjusting height BEFORE and AFTER the concrete is poured! No need to chip or chisel.

Assembling your drainage system is easy!

1

Choose Your Rough-In

3" x 4" or 4"

2

Choose Your Trim

Cleanout or Drain

3

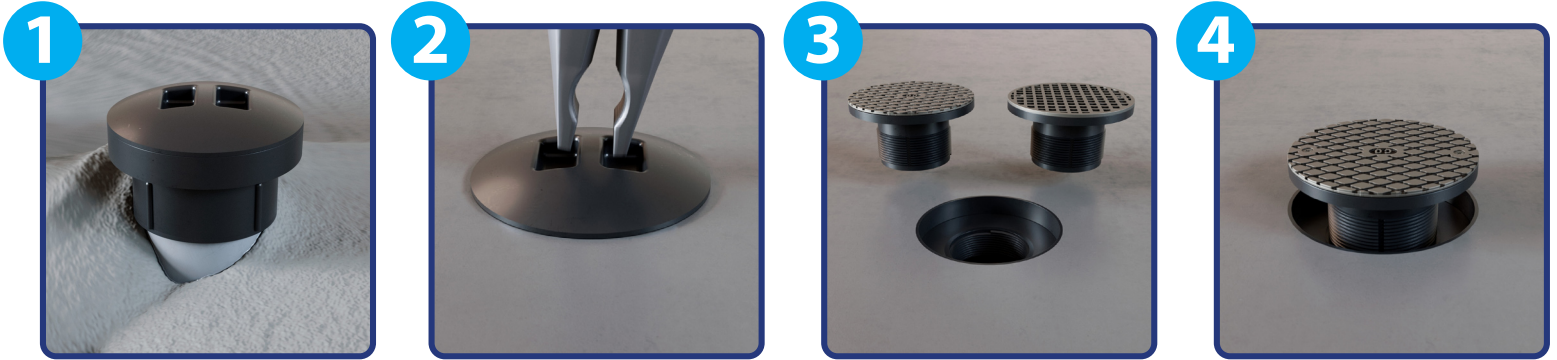

Complete Your Drainage System

3" x 4" or 4" with Cleanout or Drain

See reverse side for product listing, packaging details, and video.

The LevelBest® Drainage System allows for adjustment to floor level **AFTER** the concrete is poured. Installation is as simple as...

LevelBest® Features:

- Domed top for protection during concrete pour
- Heavy duty nickel bronze trim
- Can be used with tile rings
- Primer tapped
- Cleanouts include countersunk test plug
