

Foam Dressing Kits

ITEM 3123	Small	4" × 2"	10 / cs	HCPC A6550
ITEM 3124	Medium	7" × 4.7"	10 / cs	HCPC A6550
ITEM 3125	Large	10" × 5.9"	10 / cs	HCPC A6550

Dürma+ Foam Dressing Kits offer a comprehensive solution for wound care, providing essential components for effective and comfortable negative pressure wound therapy (NPWT). Engineered for use with an NPWT pump, these kits facilitate negative pressure wound therapy to support wound healing by extracting excess fluids, harmful substances, and tissue particles.

- Comprehensive dressing kits designed for efficient and comfortable negative pressure wound therapy (NPWT)
- Engineered for use with a NPWT pump
- Transparent polyurethane film drapes provide breathable coverage with strong adherence
- High tensile strength foam is durable, flexible, and can be cut to contour a variety of wound shapes and sizes, allowing for an individualized fit
- Dome-shaped silicone port pad offers durability and user comfort
- Single-use, sterilized components for optimal hygiene
- Available in multiple sizes to accommodate a variety of wound types
