

3M™ SecureFit™ 3700 OTG Series

Get over-the-glass protection with all day wearability with the 3M™ SecureFit™ 3700 Series. Featuring Pressure Diffusion Temple (PDT) Technology and an adjustable ratcheting temple, the SecureFit 3700 Series offers over-the-glass protection with a personalized fit.

Adjustable Ratchet Temples
Multiple position ratchet allows user to adjust lens for facial features and eyeglass position.

Pressure Diffusion Temple (PDT) Technology
3M patented technology that helps diffuse pressure over the ear for a secure, comfortable fit.

Same Protection, New IR Lens Color
Unlike green IR shade lenses, gray IR lenses provide wearer with better color recognition. (Select Models)

Alternate Fit
Adjusted lens angle and soft nose bridge designed to help accommodate tall cheekbone structure and low nose bridge height. (Select Models)

Polycarbonate Lenses

- Absorb 99.9% of UVA and UVB rays.
- Meet the requirements of ANSI Z87.1-2015 Standard as an Impact Rated Spectacle.

Brow Guard
Contoured brow guard rests comfortably against forehead and helps provide additional coverage from particles. (Select Models)

Two Coating Options (Model Dependent):

Anti-Scratch Coating

- Many prescription eyeglasses do not have anti-fog coating on the lenses, therefore some workers may prefer our less expensive standard anti-scratch coating.

3M™ Scotchgard™ Anti-Fog Coating

- Scotchgard™ Anti-Fog Coating resists fogging longer than traditional anti-fog coatings, up to 25 washes with water*.
- Helps provide durable scratch resistance in tough work environments.

*3M internal testing per EN168 test method when compared with traditional anti-fog coatings.

Available Models: Designed with options.

SF3701SGAF-BLU
SF3701AS-BLU
Lens: Clear
Frame Color: Blue/Blue
