Frequently Asked Questions

What is Color Pre-Roll?

Color Pre-Roll starts recording before you even receive a motion alert - the first feature of its kind for battery-powered doorbells and uniquely exclusive to Ring. With up to 4 extra seconds of color video, you'll know what happened before your package was delivered, or other motion was detected.^{1,2}

What's the difference between Ring Video Doorbell 3 and Ring Video Doorbell 4?

The main difference is that Ring Video Doorbell 4 includes our Pre-Roll feature which allows you to see up to 4 additional seconds of color video before the motion event was triggered. Video Doorbell 4 also has improved performance from Ring Video Doorbell 3, including improved motion detection and night vision.⁴

What is Ring Protect?

Ring Protect is a comprehensive optional subscription service that lets you review, share and save every video and photo captured by your Ring Video Doorbell 4, plus a few extra perks. To compare and learn more about Ring Protect visit <https://ring.com/protect-plans> to choose a plan that works for you.

Do I need Ring Protect to use Video Doorbell 4?

No. You can still use your doorbell or camera to watch over your home and answer the door from anywhere, even without a subscription to Ring Protect. Without Ring Protect, you'll still receive real-time notifications when anyone comes to your door, and you can answer the notifications to see, hear and speak to visitors in real time right from your mobile device.

However, without a subscription to Ring Protect, you won't be able to review any videos that you missed in real time, and you won't be able to save your videos or share them with anyone. Visit <https://ring.com/protect-plans> to learn more about Ring Protect and to choose a plan that works for you.
