- **EFFICIENT** - Ratcheting design allows you to quickly adjust jaw opening size without removing pliers from work piece
- **VERSATILE** - Multi-purpose jaw grips feature large and small teeth, and flat and angled surfaces for maximal utility
- **EFFECTIVE** - Precision machined ratcheting channel offers more jaw positions than standard tongue-and-groove pliers for improving gripping
- **Ambidextrous design** means no button to press or grooves to align, and operates quickly from either side
- To adjust pliers, simply press the straight handle towards the upper jaw. To open jaws to full capacity, open lower jaw completely, and slide handle back down
- Drop forged and hardened alloy vanadium steel, with cushion grip handles for comfort and control
- Adjustable jaw capacity up to 2-1/2 inch (64mm)
