

Expressions and Equations

Contents

Lesson 1	Expressions with a Variable	52
	Objective: Write and evaluate an expression with a variable.	
	Manipulative: Color Tiles	
Lesson 2	Variables x, x^2, and Constants	56
	Objective: Understand variables and the impact that a change in the value assigned to a variable can have on an algebraic relationship.	
	Manipulative: Algeblocks®	
Lesson 3	Combining Like Terms I	60
	Objective: Simplify an expression by combining like terms.	
	Manipulative: Algeblocks®	
Lesson 4	Combining Like Terms II	64
	Objective: Simplify an expression by combining like terms.	
	Manipulative: Algeblocks®	
Lesson 5	Algebraic Equivalencies: Distributive Property	68
	Objective: Use the Distributive Property to expand an algebraic expression.	
	Manipulative: Algeblocks®	
Lesson 6	Equations with a Variable	72
	Objective: Write and solve an equation with a variable.	
	Manipulative: Cuisenaire® Rods	
Lesson 7	Addition and Subtraction Equations	76
	Objective: Solve addition and subtraction equations.	
	Manipulative: Cuisenaire® Rods	
Lesson 8	Multiplication and Division Equations	80
	Objective: Solve multiplication and division equations.	
	Manipulative: Cuisenaire® Rods	
Lesson 9	Patterns and Function Tables	84
	Objective: Use patterns and function tables to solve problems.	
	Manipulative: Pattern Blocks
