

Q.1

Write the following in the form of a linear equation in one variable:
The sum of three consecutive odd numbers is 33.
The perimeter of a square is 40 cm.
The length of a rectangle is 5 cm more than its breadth.

Q.2

Write the following in the form of a linear equation in one variable:
The sum of two numbers is 100.
The difference between two numbers is 20.

Q.3

Write the following in the form of a linear equation in one variable:
The sum of three consecutive even numbers is 42.

Q.4

Q.5

Write the following in the form of a linear equation in one variable:
The sum of two numbers is 100.
The difference between two numbers is 20.
