

Along the Line

What fraction is shown by the point on the number line?

Tip

Think of the unit fraction each number line shows. Then think of how many jumps to get to the spot on the number line.

A	B	C	D	E	F
$\frac{2}{2}$	$\frac{3}{4}$	$\frac{5}{8}$	$\frac{1}{3}$	$\frac{1}{8}$	$\frac{4}{8}$
G	H	I	J	K	L
$\frac{7}{8}$	$\frac{2}{3}$	$\frac{5}{6}$	$\frac{1}{4}$	$\frac{1}{2}$	$\frac{2}{6}$

Objective: Find locations of points on number lines.
