# VISTA® Plus Series

VISTA – One of the Industry's Most Reliable and Versatile Residential Security Systems Information For Security Dealers

# Take Control of Opportunity

**The VISTA Plus Series is one of the most reliable, brand-recognized security systems in the world protecting more people and property than any other offering.** VISTA easily and conveniently provides you and your customers with a wide range of applications that protect life and property including smart home control options for lighting, thermostats, locks, garage doors, water-shut off and audio.

• VISTA's long-term reliability drastically reduces the need for costly site visits and therefore lowers end-to-end account maintenance costs, especially with LTE radio communication support

• With VISTA you can tailor a system to your customer's needs with a wide range of options including fixed, custom alpha or graphic touchscreen keypads, hardwired or wireless sensors, Z-Wave® smart home support, IP, GSM, and LTE or POTS communication paths

# Features

### Higher System Capacity

Expand systems up to 48 zones using hardwired or wireless expansion.

### Wireless Keys

Add wireless keys without using any protection zones.

### Battery Saver

Unique load shed feature saves batteries during extended power outages and reduces service calls.

### IP/Cellular Radio Support

Reduce installation time by communicating panel programming information over the Internet or by cellular radio via GSM or LTE, instead of using telephone lines.

### False Alarm Reduction

VISTA systems incorporate the latest false alarm reduction features, including Exit Delay Restart, Auto Stay, Cross Zoning and Cancel Verification.

*Wireless Keys*

*Panic Transmitters*

## VISTA-21iP
## 48 Zone Control Panel with Integrated IP Communicator

The VISTA-21iP Control Panel delivers a full communications solution with an integrated Internet communicator and optional snap-in GSM radio right on board. It delivers the same installation advantages, innovative end-user benefits and robust system capacity you've come to expect from VISTA panels – plus a whole lot more.

- Built-in Internet communicator provides the most sophisticated, reliable data security – with no installation required!

- VISTA GSM Digital Communicator combines the dialer, Internet and GSM in one cabinet

- Quad-Path technology provides four paths of communication using the dialer, the Internet, GPRS and SMS for added reliability and security

- Primary communications path is selectable—offering the most convenient, cost-efficient way to communicate

- Great alternative to TELCO lines—providing a faster communications solution at higher speeds than the traditional POTS method

### Save Installation Time

SIM Card

*Internet Communicator*

*Back of VISTA-GSM*

*VISTA-GSM*

# Keypads

**Tuxedo Touch®**
**TUXS and TUXW – Security and Automation Controller**

The Tuxedo Touch Series provides you with an excellent way to offer home automation as part of your security package. The magnificent, 7" high-resolution graphic touchscreen is the easiest, most affordable way to tie all of the technology in your customers' homes and businesses together—including security, cameras and Z-Wave enabled thermostats, lights, locks, thermostats and shades.

- State-of-the-art home and building controller, video viewer, digital picture frame and integrated security in one easy-to-use interface
- Icons and menu-driven prompts make operation simple and intuitive
- Control system actions with convenient voice control..."Hello Tuxedo"
- A built-in web server lets your customers control Tuxedo Touch anywhere in their home or facility on an iPhone®, iPad®, Android™, BlackBerry®, web-enabled TV or any compatible wireless mobile device (TUXWIFIW and TUXWIFIS)
- Low-cost installation, has tremendous consumer appeal and is a great way to close more business, increase your average sales price and reduce attrition

- Automation and control of Z-Wave enabled lights and thermostats
- View live video of up to four cameras around the premises on the touchscreen, smartphones, tablets or televisions
- Can be installed in any new or existing home at any time – without any hassle
- Digital picture frame feature lets homeowners display family photos and create slideshows
- Homeowners can play personal videos from an SD card right at the touchscreen
- Voice annunciation of type and location of alarm (English language only)

*iPhone and iPad are registered trademarks of Apple® Inc. All other trademarks are properties of their respective owners.*

# Keypads

## 6280
## TouchCenter

- Brilliant, 7" graphic touchscreen display and digital picture frame in one
- State-of-the-art security system controller with graphic icons that intuitively guide end-users through operation
- Homeowners can display family photos and create slideshows
- Homeowners can play personal videos from an SD card right at the touchscreen
- Available in white and silver/ black to match any décor
- Choice of English, French Canadian and Spanish languages to open new markets
- Voice annunciation of type and location of alarm (English language only)

## Premium
## Alpha Keypads

Vibrant, negative etched keys and vivid negative mode displays provide greater contrast – making the keypads easier to read and operate. Available in silver/black and white to match traditional and modern interiors.

**6460W**

*Customize with your company logo!*

**6460S**

## Basic and Voice
## Keypads

Easy to use and easy to read, our basic wall-mounted keypads make security system operation simple. Large, bright displays spell out system status in plain English without any codes to remember. Keys are soft-to-the-touch, labeled with simple commands and illuminated for easy nighttime visibility. Our talking keypads annunciate the type of alarm and location in an emergency – giving your customers time to act quickly in an emergency.

# Services

**Resideo Total Connect
Remote Services**

If you're looking for additional RMR, consider offering Total Connect Remote Services on every installation. Your customers will be able to connect to their homes and families whenever they want, wherever they are on the same mobile devices they use every day.

**Your customers can:**

• Be alerted to important events inside or outside their homes via email, text messages or video notification

• Know if their children have arrived home from school by a certain time or if they haven't

• Keep an eye on kids, babysitters, elderly relatives, pets and property via remote look-in video

• Be notified about floods, leaks and extreme temperature changes

• Receive alerts if valuable objects like antiques, paintings or electronics have been moved or disturbed
