

Oxivir® 1

The everyday, everywhere hard surface disinfectant

Fast

- Available in RTU and Wipes
- 81 total RTU claims and 75 total Wipes claims
- Achievable contact time
- One-minute contact time for:
 - Bacteria - TB
 - Viruses - Fungi

Effective

- Daily, one-step disinfectant cleaner
- Short contact time can increase turnover efficiency and improve compliance with label
- Sanitizing claims – Non-food contact surface (10 sec) and soft surface (RTU only, 30 sec)

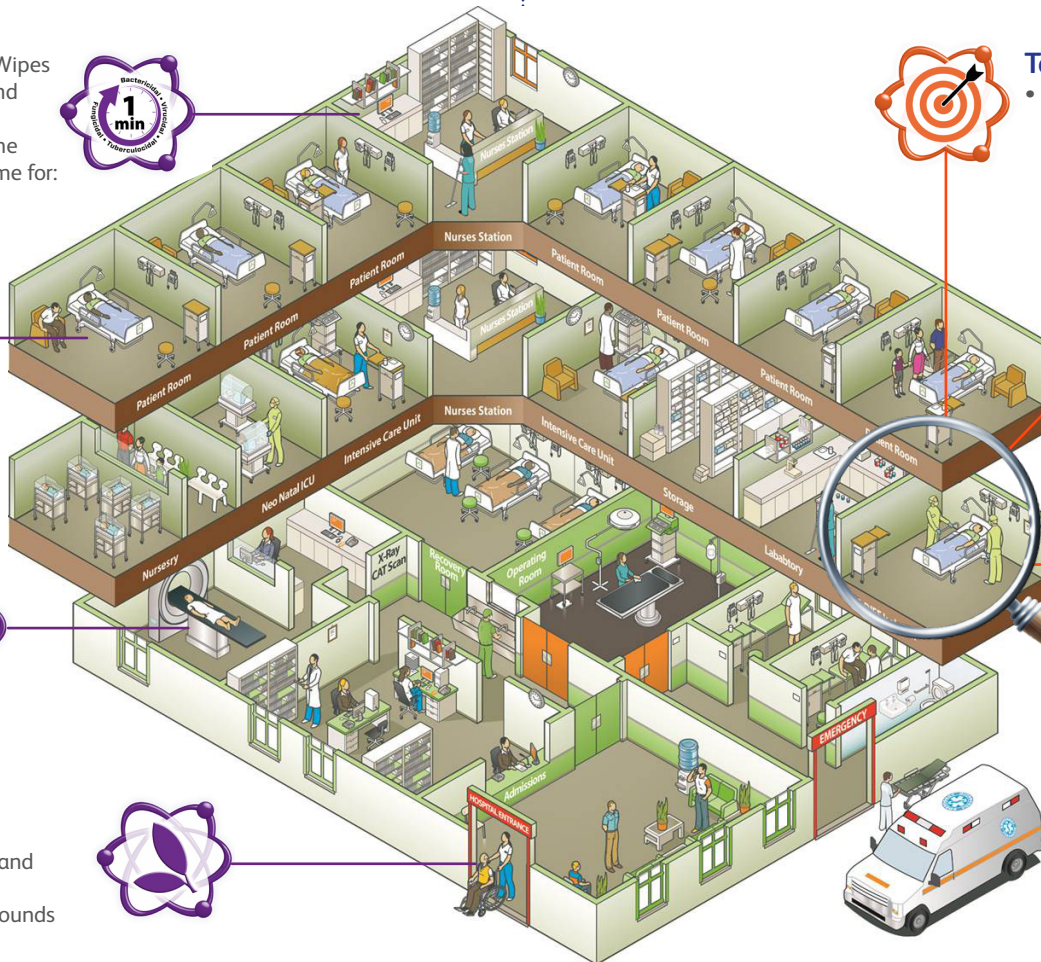

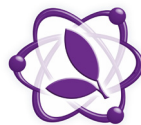

Responsible

- No PPE required
- Category IV in all six EPA toxicity studies
 - Best possible safety rating
- Non-irritating to eyes or skin
- Non-corrosive to most hard and soft surfaces

Sustainable

- Biodegradable
- Non-toxic
- Active breaks down to water and oxygen after use
- Free of volatile organic compounds
- 2-year shelf life

Avert®

The *Clostridium difficile* hard surface disinfectant

Targeted

- Use in endemic *Clostridium difficile* and outbreak conditions

Fast-acting

- Four-minute contact time against *Clostridium difficile*
- Wipes and RTU

Contact Precautions

- PPE Required

Oxivir® 1

General Virucide, Bactericide, Tuberculocide, Fungicide, Sanitizer

Next generation ready-to-use, daily disinfectant cleaner based on proprietary AHP® technology formulated to deliver broad spectrum disinfection in 1 minute or less, the shortest contact time in our portfolio.

- Oxivir® 1 is available as a ready-to-use (RTU) and as a disposable wipe
- Fast acting, convenient formula, suitable for daily use and contact time of ONE minute or less
- Short contact times of 1 minute or less Virucidal, 1-minute Bactericidal, Tuberculocidal and Fungicidal, 10-second Non-Food Contact Sanitizing and 30-second Soft Surface Sanitizing
- Formulated with patented AHP® technology containing no phosphates, quats or phenols
- Meets the lowest EPA toxicity category in all six toxicity studies, making it a responsible choice for users, around patients and on most common healthcare surfaces
- One-step, broad spectrum, multi-surface cleaner/disinfectant and sanitizer
- Harnesses the cleaning power of hydrogen peroxide
- Specially designed to penetrate the toughest soils
- Available in four convenient wipe sizes: 11" x 12", 10" x 10", 6" x 7" and 7" x 8"

SKU Number	Package Size	Format
100850916	12 x 1 US qt. / 946 mL	RTU
100850922	12 x 60 ct.	Wipe
100850923	12 x 160 ct.	Wipe
100962573	12 x 60 ct.	Wipe
100850924	4 x 160 ct.	Wipe
100850925	4 x 160 ct.	Wipe Refill
EPA Reg. #: RTU: 70627-74; Wipes: 70627-77		

Avert®

Kills *Clostridium difficile* spores in only 4 minutes

Avert® Sporidical Disinfectant Cleaner is a bleach-based, one-step disinfectant cleaner for use in isolation rooms and outbreak conditions. Avert® is available as a ready-to-use (RTU) and as a disposable wipe.

- Meets new, more stringent EPA testing requirements for disinfectants with sporicidal claims against *Clostridium difficile* (ASTM E2197)
- Meets AORN recommended cleaning methods for Prion contamination of environmental surfaces
- Compatible with most healthcare surfaces including stainless steel, porcelain, glass, plastic and glazed ceramic
- Available in two convenient wipe sizes: 11" x 12" and 6" x 7"

SKU Number	Package Size	Format
100842725	12 x 32 oz.	RTU
100895790	12 x 160 ct.	Wipe
100895931	4 x 160 ct.	Wipe
100895932	4 x 160 ct.	Wipe Refill
EPA Reg. #: RTU: 70627-72; Wipes: 70627-75
