APP USER GUIDE

FEIT ELECTRIC
Spot Lights
Feit Electric App

**24/7 HELP** For 24/7 customer support, visit **feit.com/help**

System Requirements
Minimum: iOS 11.0, Android™ 6.0 Marshmallow or higher
- Dedicated 2.4GHz Wi-Fi Network -
Your screen images may differ from this user guide.

BEFORE USING THIS USER GUIDE SEE INCLUDED INSTALLATION GUIDE FOR PROPER PRODUCT INSTALLATION.
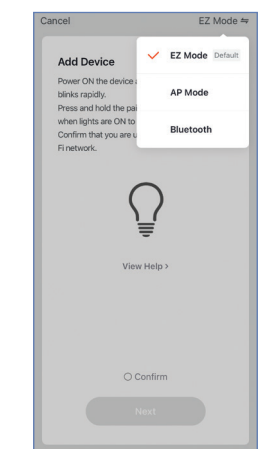

NOTE: Only works with **2.4GHz** Wi-Fi networks.

Go to your Wi-Fi settings and connect your phone to your 2.4GHz Wi-Fi network.
Set Up Device

1 Download the **Feit Electric** app.

2 Launch the **Feit Electric** app. Enter an email address to register, then tap **Continue.** A verification code will be sent to your email.

3 Create a password then tap **Done.**

---

4 **Permissions & Location Access**

Allow notifications (highly recommended).

5 **Allow** the **Feit Electric** app to access your location to help connect your Spot Lights.

Adding Device
NOTE: Only works with 2.4GHz Wi-Fi networks

1 Install and power On light(s) then tap **Add Device** or the plus (+) sign on upper right corner.

Simple Pairing Mode

1 Enable Bluetooth on your smart device for simple pairing.

---

2 Make sure you are connected to a 2.4GHz Wi-Fi Network. The device name(s) will pop up for Simple Pairing enabled devices. Tap on **Go to add.**

---

3 Make sure the lights are blinking, then select one from the list. Tap on **+** sign.

NOTE: If lights are NOT blinking, press and hold the Wi-Fi button on the Control Box for 5 seconds when lights are On to enter pairing mode. (See manual for more info).

---

4 Select your 2.4GHz Wi-Fi network, tap **Next.**

---

5 The status window will appear and show progress toward set-up.

NOTE: If unsuccessful, the "Failed to Add" screen will appear. Quit the app and repeat the previous steps.

---

6 To rename the device, tap the **Pen** icon, enter the new name and tap **Done.** The flood light is now ready to be controlled with the **Feit Electric** App.

NOTE: Constant power to the Spot Lights is required at all times.

Alternative Set-up Method EZ Mode

1 Install and power On light(s) then tap **Add Device** or the plus (+) sign on upper right corner.

NOTE: Use this pairing mode to connect multiple devices at a time or if there are issues with Simple Pairing Mode.

---

2 Make sure you are connected to a **2.4GHz Wi-Fi Network,** then tap **Lighting** and then tap **Spot Lights.**

3 Tap upper right corner and make sure you have **EZ Mode** selected. Follow the steps on your smart device to complete setup.

Features

1 **Individual Spot Lights On/Off**

Tap the Spot Lights icon to turn the Light On/Off.

2 **Individual Spot Lights Setting**

Press and hold the icon for two seconds for light settings.

Dimming

3 Slide the **dimming bar** left or right to set the brightness level.

Controlling All Lights

4 To control all lights, tap on the **Checkmark** icon. Then slide to adjust the **brightness.** Finally tap on the **color** to apply the settings.

Controlling Individual Lights

4a Tap on the **Checkmark** icon on the bottom to select single light. Tap on the **Color** to change and slide to adjust the color. Then tap on the lights to change the color individually. Use the **Eraser** icon to turn off individual light.

4b Slide your finger up or down the chosen color to adjust saturation.

---

5 Preset colors can be selected in the corner with a square icon.

6a Tap on **White** to access the tunable white palette.

6b Tap on the square icon in order to access the preset color palette.

---

7 Tap on the **color palette** icon to select a preset color effect.

Schedule

8 Tap on the clock icon.

9 Tap on the + icon.

---

10 Choose a Start time, select the days you'd like them on, then choose the action to be turn on.

11 Once you have selected the settings for on time click save. In order to have a turn off time, repeat the previous step but change the action to turn off.

---

12 **Timer**

Switch the Timer on. Set the time and confirm.

13 A message will appear in the Timer section.

Additional Features
Renaming/Removing devices

1 Additional features are available in the context menu, including renaming and removing devices. Tap the context menu in the upper right corner.

Groups

1 Tap the **Groups** icon at the bottom of the app home screen.

NOTE: To create groups you will need at least two sets of Spot Lights. You can only group a Spot Light with other Spot Lights.

---

2 Tap on **Create Group.**

3 Tap on **Spot Lights.**

---

4 Select the Spot Lights that you want to group.

5 Tap the group name and enter the name of the group.

---

6 Once the group is named and the Spot Lights are selected, tap **Save** in the upper right corner.

Manage Groups

7 Tap the **Groups** icon.

8 Tap the context menu in the upper right corner (•••).

9 Tap **Manage Group.**

---

10 Select the group to edit.

11 Once selected, tap **Edit** in the upper right hand corner.

---

12 Rename the group or remove a Spot Lights from the group. Once complete, tap **Save** in the upper right corner.

Delete Groups

13 Tap the **Groups** icon.

14 Tap the context menu in the upper right corner (•••).

15 Tap **Delete Group.**

---

16 Select the group to delete. Once selected, tap **Delete Group** in the upper right corner.

17 Tap **Confirm.**

Share Control of a Device
(Two Methods)

1 **Method 1:** Tap the **Profile** icon, then tap **Share Devices.**
