

SODIUM CHLORIDE INHALATION SOLUTION, USP 0.9% UNIT DOSE VIALS

Dynarex Resp-O₂™ Sodium Chloride Inhalation Solution, USP, 0.9% Unit Dose Vials are disposable, single-use respiratory therapy vials filled with a sterile, normal saline solution (0.9% sodium chloride). The vials are designed to be used with a variety of tracheal suction systems for inhalation, nebulization, and irrigation. The saline solution is sterilized to ensure patient safety and to help avoid cross-contamination.

- Designed for safe and efficient irrigation during suction procedures
- Twist-and-pull top allows for easy opening
- Features graduations in 0.5 mL increments for accurate measurement
- Tapered tip facilitates use with a variety of tracheal suction systems for optimal adaptability
