

Geometry

Contents

Lesson 1	Scale Factor	82
	Objective: Construct figures using scale factors of 2 and 3.	
	Manipulative: AngLegs®	
Lesson 2	Construct Triangles	86
	Objective: Investigate conditions for building triangles.	
	Manipulative: AngLegs®	
Lesson 3	Circumference of a Circle and π	90
	Objective: Find the circumference of a circle.	
	Manipulative: Relational GeoSolids®	
Lesson 4	Area of a Circle	94
	Objective: Find the area of a circle.	
	Manipulative: Deluxe Rainbow Fraction® Circles	
Lesson 5	Area of Irregular Figures	98
	Objective: Determine the area of an irregular figure by dividing it into other shapes, such as rectangles and triangles.	
	Manipulative: XY Coordinate Pegboard	
Lesson 6	Polygons: Exploring Area	102
	Objective: Use various polygons to form a new, larger polygon and measure its area.	
	Manipulative: Pattern Blocks
