

Gem Placement
Guide

Sea Friends

BiG Gem

DIAMOND PAINTING

Create

12 Shimmering Stickers &
2 Sparkling Suncatchers

Before you Begin

Clear your space so you have plenty of room to work. Spread out your colorful gem bags, gem tray, stylus and wax square.

Helpful Tips:

- Cover your work surface with a large towel. This will help contain the gems in case they spill.
- Use a large resealable bag for storing your components.

Bonus sticker!

Remove and use the sticker from the packaging.

Ages 6-96
#6248000

Prep your Gems

Find the sealed ends of each gem bag. Carefully peel it open, pour some into your gem tray then reseal the bag. Leave room in your tray. This will make it easier to pick up the gems with your stylus.

Helpful Tip: Upside down gems can be flipped over by shaking the tray side to side, or use your fingers.

Start with Stickers

The little sticky dots will guide gem placement. Choose colors that match the designs or pick different gem colors. It's up to you.

Helpful Tips:

- Separate your stickers so you can work on one at a time. Use scissors to cut along the dotted lines before you peel the clear protective cover.
- If you don't have scissors handy, peel a little of the protective cover at a time as you work. Keep the sticky dots covered when not in use.

1 Peel the clear film off the wax then press & twist the tip of the stylus into the wax to fill it.

2 Peel off the clear protective cover to reveal the adhesive.

3 Pick up gems with the tip of the wax filled stylus. *(When it stops working, refill it with more wax.)*

4 Place the gems on the adhesive dots. When finished, press down on the gems so they stay in place.

Time for Suncatchers

Diamond paint them your way with the remaining gems. If you run out of your favorite color, have fun blending the gems in a creative way.

Helpful Tip: Peel a little of the protective cover at a time as you work. If you need to stop at any point, you can cover your design then come back to it later.

If you'd like help with gem placement, use the guide printed on the back. Place your suncatcher over top and follow the dots. Have fun!

There are two ways to display. Insert a stand into the slit at the bottom of the suncatchers. Or hang them on a window or mirror with the suction cup hooks.

Pro Tip: For best results, wet the suction cup before using.

Remove protective film from stands.
