## #1118000 Shrink Fun™ Fairy Garden

50 pre-cut Shrink Fun designs come ready to color in and shrink. Decorate the playscape with 3D fairies, flowers, forest friends and sparkling glitter glue accents.

# Shrink Fun™ Deluxe

Make 60 Shrink Fun™ Designs

**WARNING:**  
FUNCTIONAL SHARP EDGE

**ADULT SUPERVISION** is required when baking.

This awesome Deluxe Kit includes enough stuff for hours and hours of Shrink Fun™ activities! With all these components you can create an amazing array of bracelets, necklaces, key chains, hair decorations, gift tags, invitations, bookmarks, and more.

### Color, Cut and Punch

1. The Shrink Fun™ plastic has a smooth side and a rough side. Using the pencils included in your kit, color on the rough side only.
2. Cut out the images along the dotted lines. Do not trim too close to the charms. There should be extra space around the designs to help in the shrinking process.
3. Use the hole punch to make a hole at the top of the design. When punching a hole, position the tool far enough away from the edge so there is extra plastic above the hole. If you want to turn some of your designs into stick-on decorations, you will not need to punch the hole. Just trim off the hole punch area of the Shrink Fun™ design.

### Time to Shrink, shrink, shrink

Now you are ready to bake the Shrink Fun™ charms in a toaster oven or a conventional oven. Follow the directions below carefully. Let them dance, curl, flip, shrink and flatten. **If you remove them too soon, your Shrink Fun™ designs won't shrink! Place them back in the oven until the shrinking process is complete.**

**Warning – Safety first. ADULT SUPERVISION is required when baking Shrink Fun™.**

- Preheat the oven to 350° (175° C). Do not use the microwave.
- Cover your baking tray with non-stick aluminum foil. For best results do not use an air insulated cookie sheet. Place your Shrink Fun™ designs on the tray with the colored side facing up. Be sure they are at least 3 inches from each other.
- Bake for 1 to 3 minutes. Watch closely, baking times may vary depending on your oven. The Shrink Fun™ designs will begin to curl, move about and flatten. **Do not remove them until they are flat!**
- Allow 20 more seconds of baking time after all the pieces are laying flat. Ask an adult to remove the cookie sheet or tray from the oven and place them on a heat proof surface.
- Allow the Shrink Fun™ charms to cool on the tray for 10 minutes. When they are cool enough to touch, use a spatula to lift them off.

Awesome Accessories

You can dream up your own designs or look at the pictures on the box for ideas and inspiration. There are so many things you can make with this kit. You may want to keep some and maybe give some away.

Not sure what to do? Just follow along. These pictures and step by step instructions will help you out.

Ribbon and Bead Necklace

- Measure out enough ribbon to fit comfortably around your neck. You will need to add several inches so you can tie it in a bow when you are finished.
- Using the blue plastic ribbon and bead threader, thread the ribbon through the loop, as shown below, and then add some of the brightly colored beads. Space them out evenly. If you do not want them to move you can add a knot on either side of the bead to hold them in place.
- Take a jump ring, pull it apart and then place it through the hole on one of the Shrink Fun™ charm. Place the jump ring on the ribbon and then pinch it closed – *be sure the gap is closed or the Shrink Fun™ charm may fall off.* You can tie a knot in the ribbon if you do not want the Shrink Fun™ charm to move.
- If you want to make a double string necklace you can make one string of beads on the gel cord and one string with ribbon. Attach them at the bottom by placing the Shrink Fun™ charm with jump ring around both necklaces.

**Helpful Hint:** You can use a dot of your own craft glue over the knot and jump ring gap to help hold it in place.

Ribbon Bracelets

You can also use this same technique above to make a ribbon and bead bracelet to match. Measure enough ribbon to fit around your wrist – add a few extra inches so you can tie it off with a bow.

Charm Bracelets

Using the silver or pink metal charm bracelets you can add Shrink Fun™ charms accents to the bracelets using jump rings. You can use your ribbon threader to thread the tulle ribbon in and out of your bracelet for a different look.

Beaded Bracelets

Make oodles of stretchy bracelets using your gel cord and bead assortment. Just thread them on and then tie the cord into a knot. Be sure to tie several tight knots so the bracelets stay tied. Use your jump rings to add fun Shrink Fun™ accent charms.

Hair clips

Use the adhesive back foam circles to attach Shrink Fun™ charms to your hair clips. You can also add strings of beads and ribbons to the hair clips - just hang them from the Shrink Fun™ charm.

Clip-on Key chain

Use the jump rings to attach beads and Shrink Fun™ charms to your key chain. Open the back pack clip and attach it to your purse, messenger bag or back pack.

Bookmarks

You can make a fancy book mark for your teacher, librarian or favorite book lover. Just add Shrink Fun™ charms to your ribbons and beaded gel cord. Tie them onto your book mark (this is the long skinny, scalloped edge card). Use your pen or the colored pencils to write a message or sketch a picture.

Invitations

Create a one of a kind invitation using your colored pencils and the Shrink Fun™ charms. Attach them with the adhesive backed foam circles. Add a ribbon accent to the top. To make it super-fancy, use the punch to add extra holes around the edge. Thread the ribbon in and out of your card.

Gift Tags

There are several colors and sizes of printed cards included. Add ribbons, embroidery string, beads...whatever you can dream up. Attach the Shrink Fun™ charms with the foam circles or punch a few holes, add a jump ring and tie them on with ribbons or embroidery floss.
