

Year	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020
Q1	10	12	15	18	20	22	25	28	30	32	35
Q2	15	18	20	22	25	28	30	32	35	38	40
Q3	20	22	25	28	30	32	35	38	40	42	45
Q4	25	28	30	32	35	38	40	42	45	48	50

The following table shows the quarterly sales data for the years 2010 through 2020. The data is presented in a 4x12 grid format, with columns representing the years and rows representing the quarters (Q1, Q2, Q3, Q4). The values represent sales figures in units.

QUESTION

The graph displays the quarterly sales data for the years 2010 through 2020. The x-axis represents the years, and the y-axis represents the sales figures. The data points are as follows:

Year	Q1	Q2	Q3	Q4
2010	10	15	20	25
2011	12	18	22	28
2012	15	20	25	30
2013	18	22	28	32
2014	20	25	30	35
2015	22	28	32	38
2016	25	30	35	40
2017	28	32	38	42
2018	30	35	40	45
2019	32	38	42	48
2020	35	40	45	50

The sales figures show a steady increase over the period, with the highest sales recorded in Q4 of 2020 at 50 units.
