SECTION 4. FIRST AID MEASURES

General advice
: In the case of accident or if you feel unwell, seek medical advice immediately. When symptoms persist or in all cases of doubt seek medical advice.

If inhaled
: If inhaled, remove to fresh air. If symptoms persist, call a physician.

In case of skin contact
: Wash with water and soap as a precaution. Get medical attention if irritation develops and persists.

In case of eye contact
: In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. If easy to do, remove contact lens, if worn. Seek medical advice.
If swallowed

: Do NOT induce vomiting.
: Rinse mouth with water.
: Obtain medical attention.

Most important symptoms and effects, both acute and delayed

: Causes serious eye irritation.

Protection of first-aiders

: First Aid responders should pay attention to self-protection and use the recommended protective clothing.

SECTION 5. FIREFIGHTING MEASURES

Suitable extinguishing media

: Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

Unsuitable extinguishing media

: High volume water jet

Specific hazards during firefighting

: Do not use a solid water stream as it may scatter and spread fire.
: Cool closed containers exposed to fire with water spray.
: Flash back possible over considerable distance.
: May form explosive mixtures in air.
: Exposure to decomposition products may be a hazard to health.
: Carbon oxides
: Silicon oxides

Hazardous combustion products

: Carbon oxides
: Silicon oxides

Specific extinguishing methods

: Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
: Use water spray to cool unopened containers.

Further information

: Collect contaminated fire extinguishing water separately. This must not be discharged into drains.
: Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.

Special protective equipment for firefighters

: In the event of fire, wear self-contained breathing apparatus.
: Use personal protective equipment.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

: Use personal protective equipment.
: Ensure adequate ventilation.
: Remove all sources of ignition.
: Evacuate personnel to safe areas.
: Keep people away from and upwind of spill/leak.
: Material can create slippery conditions.
Environmental precautions: Discharge into the environment must be avoided. Prevent further leakage or spillage if safe to do so. Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.

Methods and materials for containment and cleaning up: Non-sparking tools should be used. Soak up with inert absorbent material. Suppress (knock down) gases/vapours/mists with a water spray jet. Keep in suitable, closed containers for disposal. Clean contaminated floors and objects thoroughly while observing environmental regulations.

SECTION 7. HANDLING AND STORAGE

Advice on safe handling: For personal protection see section 8. Keep away from heat. Use with local exhaust ventilation. Avoid contact with eyes.

Conditions for safe storage: Take measures to prevent the build up of electrostatic charge. Keep in properly labelled containers. Keep container tightly closed in a dry and well-ventilated place. Store in accordance with the particular national regulations.
