Lyric™ Gateway

Simply the Fastest Install

The Lyric Gateway security and home control system from Honeywell Home serves as the central hub for controlling security, lifestyle management, lights, locks, thermostats and more and is designed for the way people really live. Combining a security system and home automation with simplicity, portability and flexibility, the Lyric Gateway is a game changer — truly plug and play and delivers a great connected home experience right out of the box.

Gateway to More Growth

- Beautifully designed app-driven interface ideal for today's consumers
- Reach new customers — including the mobile/millennial segment, renters and new home buyers
- Open ecosystem integrates with the latest third party, connected home devices — a great way to earn more RMR

Gateway to More Installations

- True plug-and-play setup with informative voice guidance that makes installation simple, walking dealers through each step of the configuration
- Auto-enrollment of encrypted SiX™ sensors saves installation time and reduces errors
- Simple, fast programming with AlarmNet 360™
- Efficiencies such as these help dealers to increase installs from two to three per day

Gateway to More Profits

- AlarmNet 360 cloud-based business management platform helps dealers proactively recommend additional solutions to drive RMR
- Ethernet connection simplifies installations and eliminates sunset issues
- Remote diagnostics and account management saves time, and user-replaceable batteries and radios reduce truck rolls
- Prevent account takeovers and reduce attrition with the Honeywell Home exclusive Lyric Lock

Lyric Gateway
