

RVIBRAKE™ 4 PORTABLE FLAT TOW BRAKE SYSTEM

The CURT RVibrake 4 is the ultimate portable braking system engineered to give you total confidence every step of the way. Designed to meet strict braking laws in 49 states and across Canada, RVibrake 4 doesn't just check the box — it sets the standard

RVIBRAKE™ 4 PORTABLE FLAT TOW BRAKE SYSTEM

SMART FEATURES FOR FAST, SAFE INSTALLATION

Audio assistant

With RVibrake's built-in Audio Assistant, you're guided step-by-step through a quick 30-second setup so it's done right every time

Auto-positioning

Featuring a simple one-button interface, the RVibrake 4 automatically positions itself in your vehicle for a hassle-free setup

Portable design

This tow brake system is thin, lightweight, and easy to transport. A built-in carrying handle makes it simple to move and store

Brake lock detection

During setup, Brake Lock Detection automatically alerts you if something isn't right, helping prevent costly brake damage before you hit the road

Additional Features

- Adds braking capabilities to your towed vehicle when flat towing behind an RV
- Brake-lock detection ensures proper installation to prevent towed vehicle brake damage
- Audio assistant effortlessly guides you through an easy, 30-second setup
- Guaranteed to fit any make, model, and year of a flat towable vehicle
- 5-10% of towed vehicles require hardware which comes with the brake
- Includes Bullseye wireless monitor and range extender for real-time monitoring
- Limited lifetime warranty (one-year finish, one-year parts)
